

Advantages using PicGenie™ Horizontal Smart Hangers:

- **CornerLock** feature. Locks the corner miter joints securely together.
- Fits on all size wood frames - 3/8" wide and wider.
- Overall bracket size: 1 7/8" L x 15/16" H
- Reusable snap-on marking tabs. Spike on tabs always mark the exact fastener location.
- Smart Hangers can be attached randomly. One can be higher or lower than the other one and your picture will always hang perfectly level.
- Smart Hangers can also be twisted up to 15 degree off parallel with the top edge of the frame & your picture hangs level. This is due to the Smart Hanger's special arc design.
- Only 3/16" depth when attached to the frame. Leaves a small amount of needed airspace.
- **No Measuring.**
- **PinPoint Accurate.**
- **Pictures Always Hang Straight.**
- Smart Hangers have a wide sweet spot (5/8") when hanging your picture on the fasteners.
- Smart Hangers work with many types of fasteners; nails, anchors, drywall screws, etc.
- Holes in brackets accommodate #2, #3, #4, #5 & #6 screw threads.
- Super easy-to-use. Consumer friendly.
- Minimal parts associated with PicGenie™ Picture Hanging System!
- They can be used as a regular bracket with or without marking tabs.
- Brackets and Marking Tabs are easy to handle from a dexterity standpoint.
- Nails can be installed straight into wall or at a slight downward angle (10°).
- Great consumer value.
- Super high customer satisfaction.
